

AI Usage Log Phase 2

Usage log for organization and formatting of extracted Chapter 7 material.

Step	Activity	Text
Step 1	Source restriction	Used only the supplied Chapter 7 PDF as source material. No web source and no external text added.
Step 2	Extraction	Extracted terminology, protocol descriptions, theorem statements, equations, research questions, and matrix rows from the supplied chapter.
Step 3	Formatting	Formatted deliverables as IEEE-style LaTeX, PDF supporting documents, and an Excel literature matrix.
Step 4	Verification	Generated the requested files inside the PCP_02 folder and compressed them as PCP_02.zip.
